**Habitat Jam**

As part of the preparations for the third session of the World Urban Forum, the Government of Canada, in partnership with UN-HABITAT and IBM, will sponsor a free global 72-hour internet event from December 1st to 3rd, 2005. Imagine being part of a radically new form of global problem-solving that promises to empower people to take charge of decisions that affect their lives.

This is the **Habitat JAM!**

**Fire Fire** It is just over a week since a small but devastating fire took place on level 4 of the Wilkinson Building. The fire was contained in the Acoustics lab (Anechoic room), but the smoke and heat spread to other areas. Thankfully the fire did not spread to any of the adjacent offices or teaching rooms. The process of cataloguing everything that was not bolted down in the lab (ie five main areas) has been started by Phil Granger and Ken Stewart, assisted by Anne Christian and Matt Storey. This is a huge loss, but mercifully no-one was hurt. We will move forward, rebuild the labs and get the equipment repaired or replaced as soon as possible.
